

Le Tourbillon de la vie Rouge , Domaine Padie

Roussillon, France

Producer

Born in Burgundy, Jean-Philippe Padié moved back to his grandparent's home in the Southwest in 2001. There he started this 15ha biodynamic domaine producing 30,000 bottles based in the middle of the rosemary and thyme garrigues of Calce in Roussillon. 7 varieties are planted within 30 parcels of vines, he works with complete respect for the soil, his biodynamic principals releasing life to the vines. His ability to bring the life of the vineyards into the glass is what attracted us to this domaine. In the winery he works with no additives or sulphur, the use of large format oak and clay funnel the vivacity of the soils. These wines move away from tradition for this region. The freshness and precision carried by insane minerality are something very special.

Tasting Notes

Domaine Padie Le Tourbillon De La Vie Rouge is a natural red Grenache vinified with traditional methods. It enjoys a delightful ruby color and an elegant fruity nose with a elegant body and subtle tannins. Distinctive aromas of ripe fruits, spices, and licorice help bring this classic Southern French wine to life.
