WATERFORD
IRISH SINGLE MALT WHISKY

Producer

The Worlds first Biodynamic Whisky. One of only four organic Whisky's In Britain and Ireland. 'The integrity of what Waterford is, is incorruptible' – Mark Reynier on their whole approach. Unashamedly influenced by the world's greatest winemakers, they obsessively bring the same intellectual drive, methodology and rigour to barley – the very source of malt whisky's complex flavour. Extolling a hundred exclusive farms of Irish-grown barley, they search for natural flavours via three paths: their Single Farm Origins pursue the individualism of terroir-derived flavour; they are the building blocks of our Cuvées, where the whole is greater than the sum. Finally their Arcadian Barley expresses the intensity of flavour from exploring the old ways – of Organic, Biodynamic, Heritage and even Irish-peated barley. Indeed, so thorough is their exploration of the frontiers of natural flavour that they are the world's largest producer of organic and biodynamic whiskies

Tasting Notes

Out of necessity since the dawn of time, peat has been the primary fuel source in rural Ireland, with its sweet pungency familiar to generations gathered around the hearths of ancient thatched cottages. This same diffused aroma cloaked barley dried over peat smoke by illicit distillers, a custom that died out in the 1850s. With barley grown on the Single Farm Origin of Fenniscourt in Co. Carlow, we return to an earthy, wild & raw tradition rooted in the distant past.

Viticulture

Peat Source: Ballyteague, Co. Kildare. BARLEY: Single Farm Origin of Fenniscourt.
