HARAS DE PIRQUE

Producer

Haras de Pirque is located in the easternmost part of the Maipo Valley, just at the foothills of the Andes, in one of the best terroirs for producing fine Chilean wines. Haras de Pirque fully represents the strong innovative character of the Antinori family and its desire to express Maipo Valley's extraordinary terroir. The winery is designed to integrate gravity flow technology into all phases of wine production. This way, the grapes are handled as gently as possible, extracting only the softest tannins and preserving balance and precision under the eye of Cecilia Guzmán, the winemaker.

Tasting Notes

Purplish red color. Intense in aromas of black fruits such as blueberries and blackberries. In the mouth it is soft, with pleasant tannins and a mouth with a wide and persistent volume. A wine that will be considered a new classic of the Andes Maipo.

Viticulture

Galantas represents the maximum expression of Cabernet Franc in the Maipo Andes Valley. A wine capable of expressing the vibrant elegance and delicacy of this variety in this unique terroir. The grapes come from our organic field located in Pirque, Maipo Andes valley. The vineyards of Haras de Pirque are located 700 meters above sea level, where the Cabernet Franc can express their great potential due to the cold nights of the pre-Andes mountain range.

Winemaking

The 4 different plots of Cabernet Franc and Carménère were independently vinified in stainless steel and French oak vats. It is the former of alcoholic fermentation, a cold maceration for 3 to 5 days, to maximize its aromatic potential. After alcoholic fermentation with native yeasts, the wine was

transferred to barrels for a period of 14 months.
