Tasting Notes

"Medium yellow color with greenish tones, aromas from yellow-fleshed peaches and citrus fruits, and especially, lemon and grapefruit. High acidity, distinctive minerality and an almost full body with a long finish."

Winemaking

We cultivate the Assyrtiko variety in our privately owned vineyards organically (we have certification for our grapes) and our yields are quite low yields are low (about 500Kg/stremma). The region of Monemvasia is warm and dry. The area enjoys high solar exposure and cool sea breezes that are beneficial during the hot summer months. The vines are planted in linear vineyards and are 15-18 years old.
