Producer

Hailing from the village of Epineuil just ten minutes northeast of Chablis, this is a domaine for which global warming has given opportunity. A 25ha domaine certified organic, we were delighted to find expressive, good value wines and cremants produced by the increasingly respected Dominique Gruhier. Working with very low levels of sulphur, the wines have a purity lifted by the chalky kimmeridgean minerality. For the cremants, the approach is to pick later and use minimal sugar in the dosage. The vibrancy of these sparkling wines shows their success here. Dominique's aim has always been the expression of site. After 10 years of working organically he feels that this site signature has been achieved.

Tasting Notes

"Beautiful cherry color. The nose is captivating, very aromatic. The mouth is salivating. Slight blackcurrant/rose petal reduction which reveals a crystalline juice full of energy evolving towards a telluric readability revealing salinity and root bitterness generating a cherry side with stones macerated in brandy, surfing on a pretty stem grain and breeding. Beautiful homogeneous and singular ensemble Fresh and thirst-quenching on the palate, tangy with a saline and delicious finish."

Viticulture

Our biological conversion began in 2003. Today, thanks to this approach, our vineyards are more beautiful than ever. The earth is fresh and light and it smells good, proof of rich soil activity. The leaves are green and crunchy, synonymous with the good health of the plant. In 2020, a diagnosis of our ecosystem showed that we lived in an environment rich in species and subjects. Reassuring and motivating state of play to preserve and further improve our environment. The terroir is an essential notion to my vision of wine. Each cuvée must carry and transcend this intimate perception of the earth. For

this, the soil must be alive, the vine must be well there so that each root and root can capture all the subtleties that make up the great terroirs. I focus my reflection more than ever on this essential notion.

Winemaking

"Half hand harvested. Maceration and fermentation in stainless steel tanks. 10% of the grapes are whole clusters. Fermentation and maceration for 20 days, favoring pumping over. No input. Aging in 228 liter oak barrels – Burgundian pieces – mainly in woods from the Tronçais forest. No new barrels."
