Producer

The Worlds first Biodynamic Whisky. One of only four organic Whisky's In Britain and Ireland. 'The integrity of what Waterford is, is incorruptible' – Mark Reynier on their whole approach. Unashamedly influenced by the world's greatest winemakers, they obsessively bring the same intellectual drive, methodology and rigour to barley – the very source of malt whisky's complex flavour. Extolling a hundred exclusive farms of Irish-grown barley, they search for natural flavours via three paths: their Single Farm Origins pursue the individualism of terroir-derived flavour; they are the building blocks of our Cuvées, where the whole is greater than the sum. Finally their Arcadian Barley expresses the intensity of flavour from exploring the old ways – of Organic, Biodynamic, Heritage and even Irish-peated barley. Indeed, so thorough is their exploration of the frontiers of natural flavour that they are the world's largest producer of organic and biodynamic whiskies

Tasting Notes

Eccentric to some, regenerative to others, Biodynamic agriculture goes beyond the ordinary ecological mindset. Drawing upon ancient lore of lunar cycles & exotic preparations, it seeks to charge soils with vitality & barley with vibrancy. Practised by the most visionary & curious, we too are intrigued about the most natural flavours we can capture in spirit. Now & for the first time, we bring distinct Biodynamic harvests from original Biodynamic pioneers Trevor Harris, Alan Mooney and John McDonnell together in our most profound, esoteric and evocative Cuvée Concept yet.
