

Blanc de Mer, Cape South Coast, Bouchard Finlayson

Hemel-en-Aarde, South africa

Product code	BN2oZZWC
Grapes	Riesling, Viognier
Country	SOUTH AFRICA
ABV%	12.75
Case Size	6
Closure Style	Screw Cap
Producer	Bouchard Finlayson
Vintage	2023

Vegan

Vegetarian

BOUCHARD FINLAYSON
A BOUTIQUE VINEYARD

Producer

This boutique winery was founded in 1989 by renowned Burgundian winemaker, Paul Bouchard and South African Pinot Noir pioneer, Peter Finlayson. Situated in the cool climate Hemel-en-Aarde Valley in Walker Bay, 110 kilometres south east of Cape Town, the 22 hectares of vineyard are laid out according to Burgundian principles and more than half are planted with Pinot Noir. Vines are densely planted at 9,000 vines per hectare and green harvesting takes place at veraison (change of colour of grape pigmentation) in order to develop flavour concentration. The vineyards have soils of a distinctive clay-rich Bokkeveld shale (gravel and shale) and the nearby, cold ocean provides a cooling effect on the land. The winery is a leader in responsible agriculture and a pioneer for the World Wide Fund for Nature Conservation. In addition to the acclaimed Pinot Noirs, Bouchard Finlayson also produce highly rated Chardonnays, Sauvignon Blancs and Rieslings.

Tasting Notes

"Typical youthful floral aromas precede a tight, vertically focussed palate. Flinty and mouth-watering acidity slices through delicious bright pineapple and nectar flavours, enlivening the senses. It will take time for the characteristic wet stone and kerosene details of Riesling to develop in the bottle."

Viticulture

The meticulous viticulture approach is based on the Burgundian principal of high-density planting with low yields from individual vines. 9000 vines are planted per hectare, one metre apart, in five rows. The sixth row is missing to facilitate maintenance of the vines and to avoid compaction of the soils. High density planting encourages greater surface of leaf exposure and restricts root growth, thereby improving fruit concentration, which is so essential to the making of truly

great wines. Green harvesting is done at veraison, usually removing about 35% of the potential crop. Picking is done by hand with up to three separate passes through the vineyards to ensure that only the grapes at optimum ripeness are picked. The cool climate of Walker Bay is perfect for our Pinot Noir and largely influenced by the nearby cold Atlantic Ocean, rendering it one of the coolest wine growing areas in the Cape. The Hemel-en-Aarde valley is surrounded and sheltered by a mountain barrier – formed by the Galpin Peak at 810m and the Tower of Babel at 1200m – trapping the cloud cover and moisture brought in from the sea by the prevailing wind. Summer conditions are consequently warm rather than hot, and winter conditions are mild and frost-free. The sea breezes

Winemaking

While estate-grown Riesling forms the basis of this unique blend, Viognier from various grower vineyards have contributed over the years – from the Overberg, Stellenbosch and even Upper Hemel-en-Aarde Valley. A mature vineyard in Elgin, with a significant granitic soil component, is currently delivering consistent results. Before pressing, all grapes are fully destemmed and fermented in a cool environment without oak. Sauvignon Blanc makes a return to the blend, mostly for aromatic diversity and palate refreshment.
