Vegetarian

Producer

Born in Burgundy, Jean-Philippe Padié moved back to his grandparent's home in the Southwest in 2001. There he started this 15ha biodynamic domaine producing 30,000 bottles based in the middle of the rosemary and thyme garrigues of Calce in Roussillon. 7 varieties are planted within 30 parcels of vines, he works with complete respect for the soil, his biodynamic principals releasing life to the vines. His ability to bring the life of the vineyards into the glass is what attracted us to this domaine. In the winery he works with no additives or sulphur, the use of large format oak and clay funnel the vivacity of the soils. These wines move away from tradition for this region. The freshness and precision carried by insane minerality are something very special.

Tasting Notes

Blackberries, minty, dried herbs. Medium bodied with ripe, smooth tannins and excellent freshness.

Viticulture

A 15ha biodynamic domaine in the middle of the rosemary and thyme garrigues of Calce in Roussillon. 7 varieties are planted within 30 parcels of vines and the work is carried out with complete respect for the soil and the surrounding environment. The plots for this wine are planted with Carignan, grown on limestone/clay soils and Syrah grown on schist.

Winemaking

This wine is the Domaine's main cuvee grown from parcels of vines planted mainly on rocky, schist soil. The wine is fermented with whole bunches of grapes - which results in a smoother texture and enhanced fruitiness. The finished wine is then aged in concrete vats for 10 months.
