Producer

A team of talented young winemakers and agronomists. The refined "Fantini by Farnese" wines are made with the best selected grapes coming from the Farneto Valley and other important estates in Abruzzo; they complete their aging process in the beautiful cellars of the Caldora Castle, a historical building that the company wished to renovate in order to safeguard the cultural heritage and the viticultural tradition of the territory of Ortona.

Tasting Notes

Ruby red with garnet highlights. Intense, persistent and fruity with strong aromas of wild berries and hint of vanilla. Full bodied, well balanced, slightly tannic with a clean finish.

Viticulture

Un-oaked wines with moderate alcohol and feather-light tannins.

Winemaking

Our vineyards are grown in the communes of Ortona and San Salvo on the Adriatic coast of the Abruzzo. The vines are planted with a south-eastern aspect on clay-limestone soil and trained using a pergola training system.
