MAGNA VIDES
VIÑAS Y VINOS

Producer

Magna Vides was born on the basis of its meaning, to do what you love with the ones you love. Returning to their roots, Pablo and Andrea have built on family holdings, expanding, collecting special plots and in 2005 Magna Vides was started. This project built on strong foundations of old vines and a respect for the balance of the vineyard yields wines, which are, in the words of Andrea 'expressions of nature'. Using planting material from their own old vines, the focus is on preserving what was there before. The wines are blended from the field selections, picked earlier than neighbours, giving a lift mid palate and more precise fruit definition. They give an expression not just of the varieties but also site. 'We think they are complex and delightful, a triumph of the new generation building on work of the last.

Tasting Notes

Medium-high layer with cherry red color. Complex and deep in the nose. Blue flowers, aromas of mountain and black fruits such as blackcurrant. Wide, intense, exuberant and balanced mouth. It is a different, interesting and unique wine. Pure terroir.

Viticulture

Unique centuries-old Vineyards located in a privileged terroir in Ribera del Duero (Municipality of La Aguilera). Cared for with the utmost affection, admiration and respect, in an ecological and biodynamic way.

Winemaking

The harvest is marked by the grape tasting in the countryside. When its flavor is perfect, we carefully harvest each plant and ferment each plot separately to respect its personality. We use native yeasts and make a gentle maceration at medium temperature. We matured for about 14 months in mainly used

barrels. We sulfite and filter very gently before bottling.
