Vegetarian

Producer

Originally recognised globally as one of the world's first and foremost organic/biodynamic wine producers, Perlage have, for many years, been producing some stunning still wines. Respectful of their origins, Perlage follow an historic path created by nature, respected by generations, producing natural wines of purity and finesse.

Tasting Notes

intense red with violet shades vegetal scents like hay, tomatoe leaves, pepper it has a light body with a right amount of tannin and red fruits flavors "Elegant, vinous, with pleasant vanilla scents due to the aging in oak barrels. The bouquet is characterized by red fruits scents and pleasant herby fragrances. Texture: Dry, full-bodied, at the beginning slightly tannic - evolves in spices notes"

Viticulture

From vineyards in the Veneto and on clay/limestone soils, facing south. The vines are farmed organically. Harvesting is by machine.

Winemaking

Production takes place in temperature-controlled tanks. Aging through malolactic fermentation and through the months-long contact between the wine and its lees. Then takes place the filtration in steel tanks and the storage in absence of oxygen. The final result is given by the fermentation of the grape juices only, without added sulfites. 10% of the wine is aged for several months in oak barrels
