## Producer

In Rudolf's own words, he feels in "a privileged situation to make a living from 2.5 hectares of vines". His early years as a boy working with his father, spraying the vines with chemicals and fertilisers led to a realisation that there must be another way. Various figures in his life shaped the direction Rudolf took. It was a book by Rudolf Steiner (the founder of the biodynamic approach to agriculture), that marked the beginning of over 40 years in biodynamic viticulture for the Trossen vines. The purity of the Trossen wines, their filigree minerality and energy seem to reflect the abundance of life both above and below the soils in these vineyards. In the winery, Rudolf takes what could be described as a sympathetic approach coaxing his wines through their ferments, some taking over a year. The purus wines are natural, the others have tiny additions of sulphur to avoid losing the vineyard expression in the glass.

## Tasting Notes

Petnat with Bubbels, no Dosage, No Degorment

## Winemaking

100 % Riesling Grapes from an old singelpool Vinegarden
