

ECO Cabernet Sauvignon, Emiliana

Chile

Product code	VE35ZZRC
Grapes	Cabernet Sauvignon
Country	CHILE
ABV%	13
Case Size	12
Closure Style	Screw Cap
Producer	Emiliana
Vintage	2023

Organic

Vegan

Vegetarian

EMILIANA
ORGANIC VINEYARDS

Producer

A globally respected hugely sustainable company that despite its size manages to retain a link to not only the land but also the people. Emiliana's has just over 600 hectares of organic and biodynamic vineyards. It is the investment in the future that is most impressive about this company. Their self-sustaining activities enable them to do not only what is right for the planet, but also all who live on it. Recent activities in the winery led by the sparky and talented Noelia Orts are moving into larger format, older oak barrels, concrete and fresher styles. Their Los Robles estate is a model of biodiversity and sustainability. They are still exploring the patchwork of soils that support the vines, seeking the best expression from their sites. ***'When nature expresses itself it inspires passions, provokes changes and opens new paths.'***

Tasting Notes

Ruby red color. Fresh and fruity nose, with cherry aromas mingled with subtle pencil lead and smoke tones. The palate features friendly, silky tannins in a juicy, balanced wine with moderate structure that's easy to drink.

Viticulture

Emiliana has just over 600ha of organic and biodynamic vineyards. Their approach includes a raft of measures to ensure the production of healthy grapes and the long term viability of their vineyards. Amongst these are the employment of a mobile chicken coop so that the chickens can suppress any unwelcome insects, the planting of native trees and flowers to encourage biodiversity and the sowing of cover crops to prevent erosion and increase soil fertility. The grapes for this Syrah rosé come from the Rapel Valley, an area made up of Colchagua and Cachapoal valleys in central Chile where the land is flanked by the Andes and the Coastal Range. The climate is sub humid Mediterranean in style with hot days and tempered nights. Alluvial soils dominate here

with deep alluvial clay loam. Clay provides water retention, which contributes to good grape ripening.

Winemaking

CLIMATE: Mediterranean, with marked seasons of warm-dry summers, cold-wet winters and high inter-annual precipitation variability. SOIL: Soils with different characteristics, depending on the geographic area.
